SUNLIGHT
POWER IS KNOWLEDGE

Sunlight Group Energy Storage Systems is a world-leading technology company and provider of integrated and innovative energy storage solutions. It specializes in the development, production and distribution of the next generation of energy storage products for industrial, off road, commercial, and advanced applications. At Sunlight, we have a genuine passion for sustainable value creation and operational excellence.

A rapidly growing global business with Greek roots, Sunlight is headquartered in Athens, its main production unit is located in Xanthi, and its battery recycling unit in Komotini. In the context of international growth, two more assembly units have been established in Verona, Italy and North Carolina, USA, while expansion continues. Sunlight Group's global growth and reach is supported by an extensive partner export network around the world. The company's consistent global outlook has rendered Sunlight a major international player in the energy storage sector, with ca. 98% of its production being exported to more than 100 countries.

#PowerIsKnowledge

At Sunlight we believe that power is knowledge. **Our Mission** is to tirelessly pursue knowledge through data and insights, and turn them into innovation, which serves our customers and improves people's lives. **Our Vision** is to power the world through knowledge and become a source of empowerment.

People, our most valuable asset

With more than 1,300 employees across our facilities, their specialized knowledge, innovative expertise, unique skills, and passion are key factors of Sunlight's success. And we focus on further empowering our expert and diverse workforce by offering career advancement opportunities, while also bringing more talent on board.

If you embrace innovation and agility; if you want to work on new technologies along with some of the best in the business; and if you want to do that in an inclusive, creative, and high-performing environment, then Sunlight is the place to be!
