## The company

Renesas Electronics Corporation is a global semiconductor company delivering trusted embedded design innovation with complete semiconductor solutions that enable billions of connected, intelligent devices to enhance the way people work and live. A global leader in microcontrollers, analog, power, and SoC products, Renesas provides comprehensive solutions for a broad range of automotive, industrial, infrastructure, and IoT applications that help shape a limitless future. Following the acquisition of Intersil, IDT, Dialog, Celeno, Reality AI, Steradian and Pantronics AG, Renesas now stands with approximately 21,000 employees working in manufacturing sites and sales offices operating in more than 30 countries worldwide.

## Our key benefits

Renesas gives opportunities for growth in personality and knowledge at any level of responsibility. We offer the "Self-Development Support Program" which allows employees to choose what skills they want to improve from over 100 courses, as well as field-specific specialized technical seminars and language classes.

Promotion of multi-track career paths and active rotation provides employees with career opportunities while pursuing their own personal growth. A variety of benefits are offered to our employees in Greece, including meal vouchers, private health insurance, hybrid working model, mobile device with business plan.

## About wellbeing

We developed the Renesas Culture in 2020, a mindset or a guideline of conduct that should be shared across the Renesas Group and all our employees. The guideline acts as the reference point for all our activities, behavior and decision-making, and consists of five elements: "Transparent, Agile, Global, Innovative, Entrepreneurial". These elements build the foundation to becoming a company that responds flexibly to changes, solves issues, and continues to create value sustainably. Each Renesas Group employee can grab the initiative by embodying this Culture and incorporating it across various decision-making processes in all activities.

WORK  
WITH US

A glowing wireframe brain is positioned in the upper center of the image, resting on a dark, detailed circuit board. Below the brain, a blue, 3D data visualization resembling a bar chart or waveform is displayed. The background is filled with various electronic components like capacitors and integrated circuits, some of which are illuminated with small green and blue lights. The overall color palette is dominated by dark blues and blacks, with bright white and cyan highlights from the glowing elements.
